An intelligent, connected, security and merchandising technology platform that promotes and secures all merchandise at retail.

InVue is a global technology company that provides retailers and brands with innovative merchandising, software and security solutions. Our products seamlessly promote and secure retail merchandise, enhancing the in-store experience to improve our customers' profits.

We back our commitment with a 90,000 square foot innovation, quality, design and service center in Charlotte, NC. Our quality control facilities in Charlotte and China, use custom designed testing equipment to simulate actual, daily in-store use of our products.

OneKEY™ ecosystem

The synergy gained from aligning brand displays with existing retailer technology results in increased profits.

BEST-IN-CLASS SECURITY

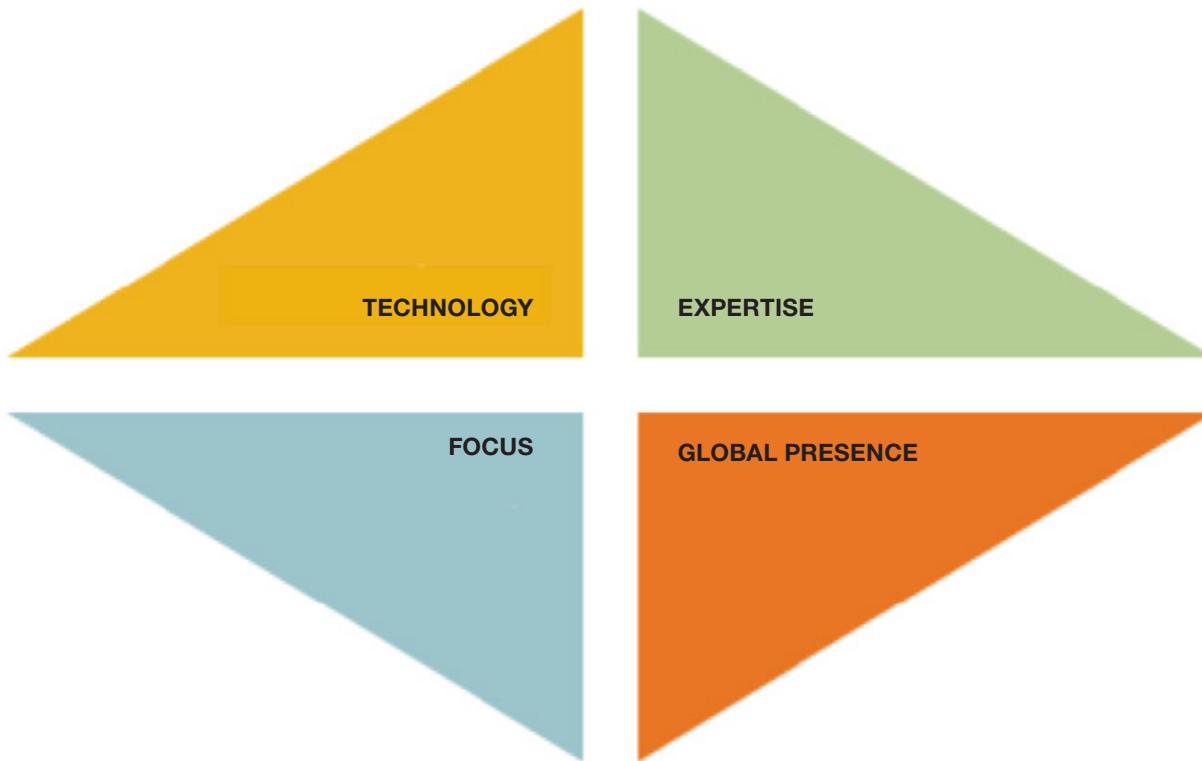

Assign a unique code per store, 12 hour time-out feature for greater protection, and ability to create zones and audit employee use.

IN-STORE VISIBILITY

Monitor, understand and manage associate interactions through software analytics. Know who did what, where and when.

OUR BRAND MISSION

Enabling an Authentic Brand Experience

**TECHNOLOGY**

- › Investing over 7%+ yearly in research and development. Custom designed testing equipment to simulate actual in-store use.
- › 90,000 sq. ft innovation, quality, design and service center in Charlotte, NC

EXPERTISE

- › Leveraging extensive retail experience and investments to bring innovative solutions to market.
- › Broad merchandising and security portfolio alongside data and analytics that give insight into customer behavior and interactions

FOCUS

- › A history working with brands at the Headquarter, Regional and Retail level to maintain a comprehensive understanding of the brands ecosystem.
- › Offering products that balance the desire for high experience with the need for security.

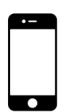

GLOBAL PRESENCE

- › Global presence and local support in 90+ countries.
- › Innovative concepts that are informed by a global retail landscape.
- › Dedicated white-glove service for brands at the HQ, Regional and Local levels.

Series 960

- › Above counter POD with exposed cable
- › Allows for cross-merchandising of accessories
- › Compatible with InVue's software suite for data analytics

Series 2865

Series 2865 is a flexible, multi-position security system that allows retailers to secure multiple electronics and accessories on a single fixture or display. Designed for single applications, mixed use tables and branded ecosystems, the S2865 is a modular, smart voltage regulation system with multi-voltage power boxes and a full portfolio of sensors that can be configured to accommodate different needs. The Ultra Low Profile sensors and low pull recoiler deliver a great consumer experience in a clean, modern design ensuring the product is the hero.

iPad Pro and Magic Keyboard with custom dual sensor

Series 2865 split-counter view of Macbook and iPhone display

iPhone Xs on a Series 2865 Vertical Display

At a glance:

FEATURES AND BENEFITS

- › Designed for branded ecosystems, mixed-use displays and category specific displays
- › Quick disconnect feature for customer interaction and easy nightly removal
- › Ultra Low Profile sensor makes the product the hero and delivers a great customer experience
- › Smart voltage regulation compensates for voltage loss between the Power Box and device
- › Up to 24 powered and 24 alarming positions or 48 alarming only positions
- › Under counter components are future-proof and easily remerchandised for the addition of new products

COMPATIBILITY

OnePOD

We've redesigned PODs from the inside out, and the result is a platform that elevates the customer experience, improves operational efficiency and has a consistent look across all stands. And with advanced data and analytics, OnePOD enables you to maximize every sales opportunity, at every store, and every display — every day. That's the Power of OnePOD.

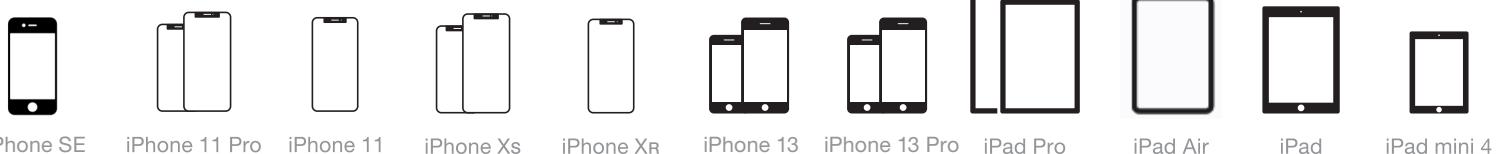

At a glance:

FEATURES AND BENEFITS

- › Minimal design aesthetic allows merchandise to be the hero
- › Elevated customer experience
- › Advanced analytic capabilities
- › Scalable security allows devices to be lifted or locked down depending on retail environment
- › 2 or 4-way unibody steel security arms available/optional

Don't let thieves design your customer experience.

ONE DESIGN

For consistent visual merchandising.

ONE EXPERIENCE

Delivering an inviting and meaningful customer experience even in a high security environment. Enabling you to engage customers with high value accessory cross-merchandising.

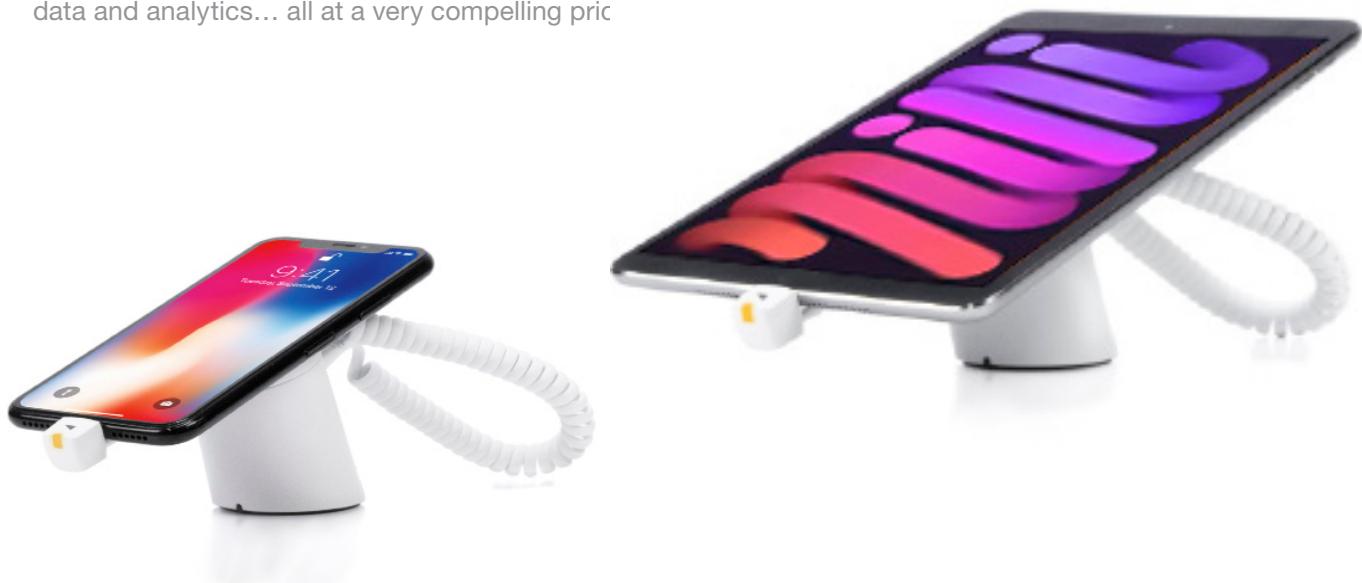

ONE PLATFORM

One common platform that allows you to control where and how much security is needed.

Series 960

The Series 960 POD features an optimal combination of contemporary design and high consumer experience. It's completely scalable to meet your security needs along with compatible software, can provide critical data and analytics... all at a very compelling price.

At a glance:

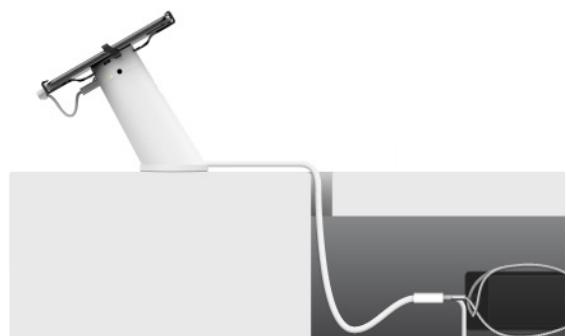

FEATURES AND BENEFITS

- › Above counter POD simplifies installation
- › Minimal contemporary design
- › High consumer experience
- › Ability to layer bracket arms
- › Allows for cross-merchandising of accessories
- › Compatible with InVue's software suite for data analytics

COMPATIBILITY

One60 Tethered

At a glance:

FEATURES AND BENEFITS

- › Industry leading mechanical security with power and alarm
- › 4-way unibody steel security arms; adjustable arms adapt to all iPhone and iPad models
- › Steel anchor cable tethers display to fixture for ultimate security
- › Adhesive mounted with no required holes in table
- › All above counter recoiler with steel cable and 15" pull length — visible steel cable resists 250+lbs pull force

HSW100 protects the Apple Watch from aggressive theft attempts

FEATURES AND BENEFITS

- 1 Heavy-duty, all-metal construction delivers a truly secure display solution
- 2 Clean, minimal, low-profile stand complements environment and engages customers, while reducing leverage points and theft access
- 3 One (1) fit-for-purpose harness band for square Apple Watch faces (38-44mm)
- 4 Two (2) mounting stud sizes for scalability and enhanced security
- 5 Four (4) simple screws, inaccessible from tabletop, secure watch frame to stand
- 6 Undercounter hardware that protects fixtures and countertops
- 7 Integrated OEM power capability for Apple Watch

HomePod Solutions

Standard Solution: Clean and inviting solution for HomePod.

At a glance:

FEATURES AND BENEFITS

- › Part of the Zips for Connected Home platform
- › Ultra-thin flex sensor protects HomePod while maintaining intended sound quality and acoustic experience
- › Sensor is discreetly secured and can be easily replaced with the quick disconnect cable
- › Alarming sensor attaches to multiple InVue USB alarming systems

Fixed Display Solution: Optimized experience with a secure composition.

At a glance:

FEATURES AND BENEFITS

- › Delivers a meaningful experience with lock-down capabilities
- › Allows customer to evaluate full acoustic experience
- › Mechanical security powered through OEM charger
- › Metal enclosure and reinforced structural base
- › Hard mounts to multiple fixture designs with stud mount kit

Universal display platform for all connected home devices.

Zips Connected Home display solution is the first and only universal and cost-effective platform to curate, display, and protect Internet of Things (IoT) and connected home devices. The platform provides a clean and consistent display solution that accommodates a wide range of devices in varying shapes and sizes to meet any retailer's unique merchandising and security needs.

Vertical display mount shown without merchandise

Connected Home device plugged into Zips Multiport

At a glance:

FEATURES AND BENEFITS

- › Universal, modular design complements the device and provides versatility
- › Compact design is ideal when space is limited
- › Powered option allows user interaction with the device
- › When used with Zips, you can power up to 4 positions
- › Alarm units can be mounted under counter for a clean display (not shown)

Apple Accessory Solutions

Versatile and scalable, Zips features alarm, power and high security options.

Zips provides secure protection for a wide range of merchandise and consumer electronic devices on display. As the only complete solution for powered and non-powered accessories or consumer electronics, Zips offers multiple

attachment and power sensors for both standard and high security applications. With Zips, create dynamic displays with minimal operational investment to increase sales.

Solutions for 1st Generation Apple Pencil

POWERED APPLE PENCIL SENSOR

- › Protects and powers Apple Pencil while allowing full customer interaction
- › Smart sensor detects and charges Pencil when in resting position. Allows instant connection to iPad and iPad Pro when in use
- › Protect and power up to four Apple Pencils at a time using Zips Power Multiport

ALARM ONLY APPLE PENCIL SENSOR

- › Protects Apple Pencil while allowing full customer interaction
- › Detachable sensor for easy daily removal or periodic charging of Apple Pencil
- › Protect up to four Apple Pencils at a time using Zips Power Multiport
- › Compatible with all USB auxiliary port alarm units

Solution for 2nd Generation Apple Pencil

ALARM ONLY GEN 2 APPLE PENCIL SENSOR

- › Mechanical alarming sensor protects Apple Pencil while allowing full customer interaction
- › Allows Apple Pencil to be mounted on iPad for charging and display
- › Compatible with all InVue auxiliary ports
- › Protect and power up to four Apple Pencils at a time using Zips Power Multiport

Optimal customer experience & security for wireless headphones.

Zips Headphone Recoiler is the only interactive merchandising solution on the market that provides both security and audio transmission through a recoiler for wireless headphones. Featuring an integrated audio cable inside the recoiler, this cost-effective solution ensures that audio always passes through to headphones, creating a stimulating shopping experience. Retailers can now openly and securely display wireless headphones for optimal customer engagement and increased sales.

At a glance:

FEATURES AND BENEFITS

- › Fully integrated audio cable for playback in the headphones, promoting an optimal customer experience
- › Reliable security to openly and safely display wireless headphones
- › Supports multiple audio barrel sizes: 2.5mm and 3.5mm
- › Integration with Zips platform

Zips Display Case

A universal case to display and protect product.

At a glance:

FEATURES AND BENEFITS

- › Clear visual case protects the product and promotes engagement
- › Compact design ideal for showing smaller items with limited space
- › Choose from a variety of sensor options for power and alarm
- › Cover fits Zips universal display platform to quickly refresh the shopping experience
- › Compatible with OneKEY. Option to combine Zips Alarm Unit with Access Manager to track display position

OVERVIEW

OneKEY is the most secure and convenient key system that enables associates to assist customers quickly and easily. Each interaction from OneKEY instantly transfers to Access Manager, where you can assign access zones, deauthorize keys, as well as understand who interacted with what, and when. Operating on InVue LIVE, OneKEY allows you to monitor and manage all key interactions real time.

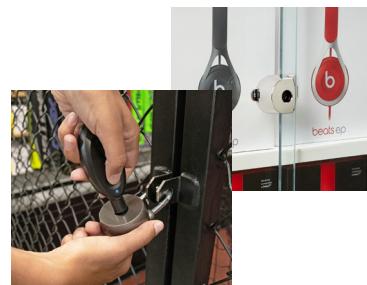

OneKEY™ ecosystem

SECURITY & MERCHANDISE

ANALYTICS

ACCESS CONTROL

Advanced Technology & Software

Using unique infrared technology, OneKEY transfers power and data to a complete ecosystem of merchandise and mobile point-of-sale solutions, providing industry-leading protection to your high-theft products and essential operating systems.

OneKEY™ ecosystem

The synergy gained from aligning brand displays with existing retailer technology results in increased profits.

BEST-IN-CLASS SECURITY

Assign a unique code per store, 12 hour time-out feature for greater protection, and ability to create zones and audit employee use.

IN-STORE VISIBILITY

Monitor, understand and manage associate interactions through software analytics. Know who did what, where and when.
